## SUMMARY

Experienced interpreter with 3+ years in medical, legal, court, and financial settings. Skilled in English-Amharic and Oromo translation, ensuring effective communication between patients, families, professionals, and legal entities. Additionally, proficient in JavaScript programming, developing and debugging code for websites and mobile apps using various frameworks and libraries. Timely and budget-conscious project completion.

## EDUCATION

**2013.09-2018.06**

### HAWASSA UNIVERSITY

ELECTRICAL AND COMPUTER ENGINEERING , BACHELOR

I am graduated from Hawassa university institute of technology by Electrical and Computer Engineering.

## WORK EXPERIENCE

**2019.09-present**

### Sympathy health

AMHARIC INTERPRETER

Medical and Legal interpreter

I have been employed as an interpreter at Sympathy Health since 2019. In this role, I offer interpretation services for English and Amharic, assisting patients, families, and healthcare providers. I have a proven track record of accurately translating medical jargon and complex concepts while maintaining strict confidentiality. My passion lies in facilitating effective communication, and I continually strive to enhance my interpreting skills through continuous learning.

### Freelancer

JAVA SCRIPT PROGRAMMER

For the past 4 years, I've been a freelance JavaScript programmer, engaging in diverse projects such as website development, mobile apps, and web-based tools. My expertise spans various JavaScript frameworks and libraries, enabling me to excel both independently and collaboratively. My dedication to crafting innovative and user-friendly software drives me to continuously enhance my skills. I am convinced that my experience as an interpreter and JavaScript programmer would be a valuable addition to your team. I eagerly anticipate learning more about your company and the exciting projects you are undertaking.
